

Cee-Bee[®] A-292 Thin

Cee-Bee[®] A-292 Thin is an extremely versatile tank type paint stripper, which rapidly removes alkyd enamels, nitrocellulose and acrylic lacquers, most moisture-cured polyurethanes and many air-dried epoxy coatings.

Conforms To

- Boeing
 - D6-17487 (Rev. P)

Benefits

- Rapidly strips a wide variety of coatings.
- Contains no phenols or cyanides.
- All surfactants are biodegradable.
- Safe on all common aircraft structural metals including aluminum and its alloys, magnesium and its alloys, cadmium plating, mild steel and high strength steel.
- Contains wax seal to minimize solvent loss.
- Effective over a wide range of temperatures from 5 - 38°C.
- Readily removes carbon deposits from bare metal surfaces.

Properties

- Thin, hazy yellow liquid
- Ammonia odor
- pH 12.5

Notes Prior to Handling

Before using your Cee-Bee[®] products, all safety and operating instructions should be read and understood. If you have any questions, please contact your Cee-Bee[®] representative before proceeding.

Use Procedure

Paint Stripping

- Use full strength in a mild or stainless steel tank at room temperature.
1. Immerse parts completely in the stripper and soak until coating, carbon or soil has been penetrated. Immersion time will vary from a few minutes to several hours depending on the type of coating to be removed. If desired, brush parts lightly to speed removal.
 2. When clean, remove parts from tank and allow excess stripper to drain back into the tank. Flush parts with air boosted water spray rinse.

Safety, Handling, and Precautions

- Do not process copper or copper alloys through the product.
- Avoid contact with acrylic plastics and with electrical wiring insulation.
- Open containers slowly to relieve internal pressure.
